

# Business Intelligence Like Never Before.

Microsoft Power BI

Visualize data through interactive, real-time dashboards and analytics that generate actionable insights.

Are you looking to use your data to gain a competitive advantage? At Vertikal6, we're helping our clients use their real-time data in the mainstream of their everyday business, not just during yearly planning sessions or monthly reviews. From real-time dashboards to data visualization to advanced analytics, Microsoft Power BI makes these capabilities possible for organization of any size.

Our clients are taking big steps toward digital transformation by accessing data insights and utilizing quick, easy-to-use self-service analytics for collaboration, dashboard sharing, ad hoc analysis, and report publishing. Any data, any way, anywhere. And all in one view.

## WHY POWER BI?

*Share Insights Across Your Organizations*

*Create Reports Using Built-in Visuals*

*Connect to Your Data Wherever it Lives*

*Collaborate, Publish & Share Reports*

*Integrates with other Tools, Including Excel*

## Gain insight & enable fast, informed decisions.

- Transform your data into stunning visuals and share them with colleagues on any device.
- Visually explore and analyze data—on-premises and in the cloud—all in one view.
- Collaborate on and share customized dashboards and interactive reports.
- Scale across your organization with built-in governance and security.

### Create

Connect to your data wherever it lives. Then explore your data with stunning interactive visualizations.

### Collaborate & Share

Publish reports and dashboards, collaborate with your team, and share insights inside and outside of your organization.

### Access Insights from Anywhere

Take action with seamless access to insights from your desk or on the go with Power BI apps built by Microsoft, our partners and your organization.

## See your data in new ways.

We can help you connect, model, and explore your data with visual reports that you can collaborate, publish, and share. Power BI integrates with other tools, including Microsoft Excel, so you can get up to speed quickly and work seamlessly with your existing solutions.

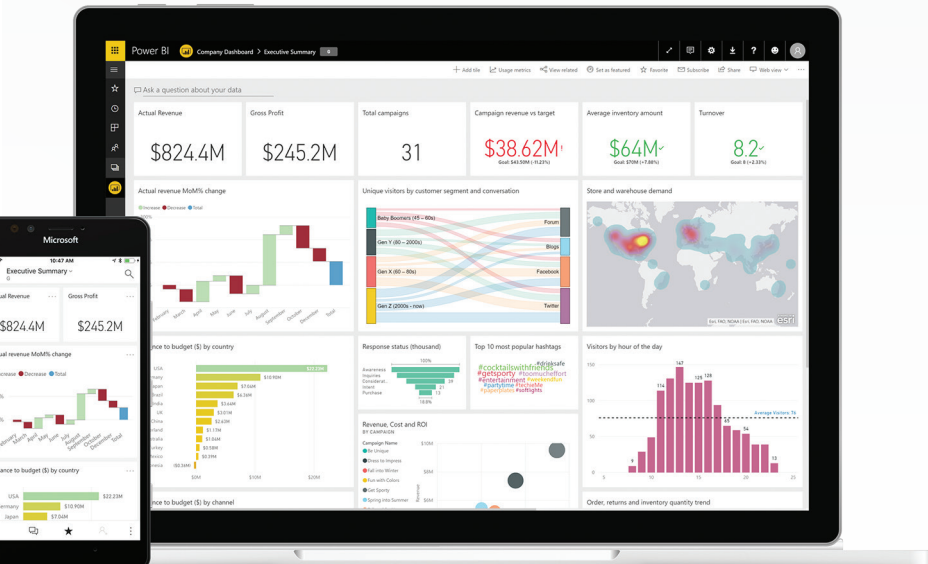

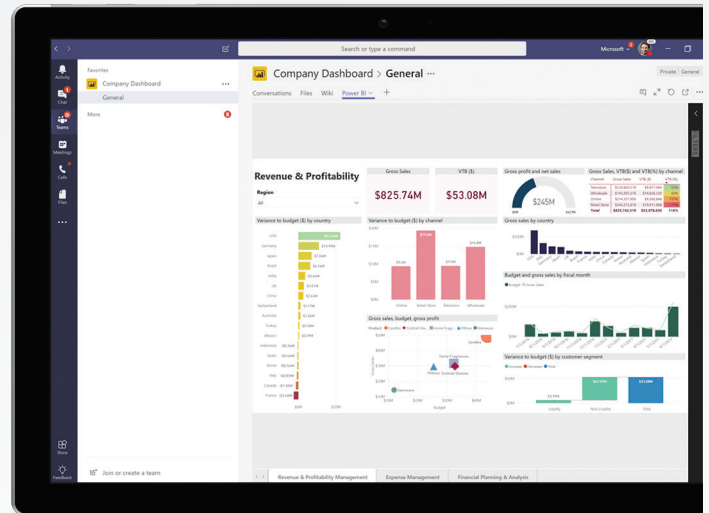

## Go from data to insights in minutes.

- Connect to hundreds of data sources on premises and in the cloud.
- Use Power Query to simplify data ingestion, transformation, integration, and enrichment.
- Create reports using built-in visuals, or create your own custom visuals.

## Create a data culture in your organization.

- Collaborate with users in every role across your organization.
- Publish real-time content that users can access in the office or on the go.
- Centrally manage your organization's business intelligence.

## Additional insights with business analytics provided out-of-the-box in apps.

- See up-to-date business data on-the-go and set data-driven alerts about important insights so you can act right away.
- Developing your own app? Embed interactive reports into your current build with Power BI Embedded.

WHERE STRATEGY  
ELEVATES  
TECHNOLOGY

Could your team benefit from an easy and straightforward way to access data and analysis using tools they already know?
